NICHE REVEALER
Discover niches. Validate competitors. Ship content to all platforms.

Niche Revealer · Quickstart Card

Guesswork, replaced with a number.

FIVE SETUP-STEPS

1. Install the browser-extension.
2. Open any YouTube channel-page and click to run the filter — one click, no tab-switching.
3. Encrypted vault (AES-256-GCM) stores keys, saved-searches and defaults on your machine.
4. Keep the calibrated defaults — or tune the 9 filters to your channel-type.
5. Multi-key rotation handles provider rate-limits automatically.

SEVEN FIRST-RESULT ANATOMY CHECKS

- [ ] The score (starts at 50, +5 per cleared filter, max 95).
- [ ] Which filters passed / failed — the reasoning, not a black box.
- [ ] Channel-Age & Subscriber-Ceiling inside your entry-range.
- [ ] Recent-Upload-Velocity vs Median-of-Last-Ten.
- [ ] Multiple-of-Median (real baseline vs single viral outlier).
- [ ] Long-Form-Ratio & Upload-Cadence match your format.
- [ ] Defaults fit your channel-class (faceless-entry, not media-empire).

ONE THRESHOLD

Score 70. Below 70: skip the niche. Above 90: open opportunity. 70–90: the grey zone where most weekends quietly disappear — decide deliberately.

Niche Revealer · **nicherevealer.com** · 7 days, no card · Free. No email-gate. No upsell.

Less guesswork. More signal.

Run a strict discovery first. Loosen one parameter at a time. Tighten one at a time. Vibes cannot be debugged.
